

AGE WEBSTORE ADDRESS CHANGE GUIDE

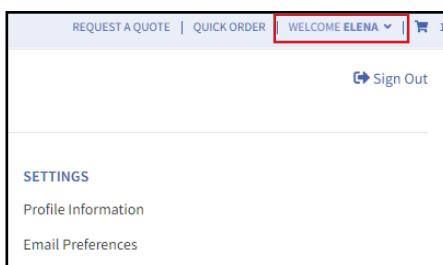

STEP 1

Log in to your AGE Webstore Account using the same information from our old webstore. Note: This is a separate account from your coach account.

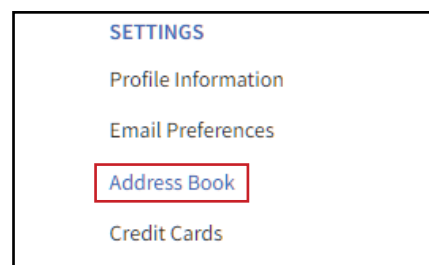

STEP 2

At the top right hand side of the screen select "Welcome NAME" and the profile menu will pop up. If it does not, please turn off your pop-up blocker.

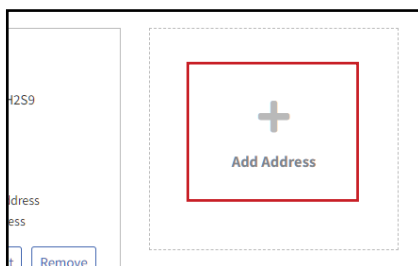

STEP 3

Select "Address Book" from the menu. This is located in the third column.

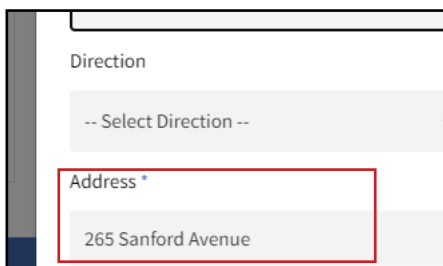

STEP 4

Select "Add Address" from the boxes displayed. NOTE: We recommend deleting all other addresses to prevent confusion.

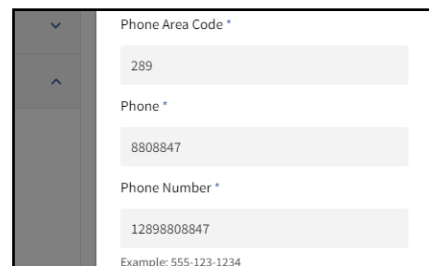

STEP 5

Fill in the required information.
NOTE: The address is divided into several fields and the bottom address field will populate automatically and cannot be edited.

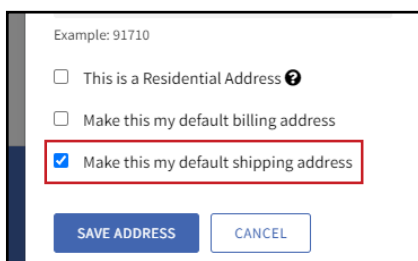

STEP 6

Enter your phone number. The country code will always be "1" for Canada. Note the Phone Number field automatically populates.

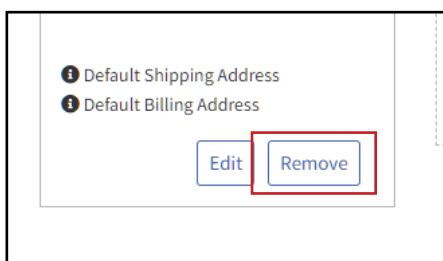

STEP 7

Select the box to make the address the default, as required. If you have multiple billing and shipping addresses update all of them.

STEP 8

Save your address. We recommend that you delete old addresses to prevent confusion. This can be done by selecting the "Remove" button in the address box(es).

STEP 9

Upon checkout, please ensure that your new address is selected. If you selected the correct default address in Step 7 this will be automatic.
